CTI Price Masterlist

Workplace safety, facility and institutional equipment
Effective 03 November 2026

Products listed	**1,056**
Distinct product codes	1,039
Departments	13
Categories	40
Price range	₱10.00 – ₱885,830.00
Pages	27

This document is the indexed corpus. The CTI Product Assistant answers from these pages, and every source card it shows cites the page number where that product appears here. Open the cited page and the product is on it.

11 rows are marked ⚠ because the source data holds two different prices for the same product code. Those are printed, not silently resolved, and the assistant refers them to the sales team rather than quoting either figure.

How to read this list

Products are grouped by **department**, then by **category**, then sorted by product code. Every line carries the code, the item as it appears in the masterlist, and the list price.

Product codes follow `PREFIX-GROUP-ITEM[-VARIANT]`. `MED-001-01` is Medical, group 001, item 01. A fourth part is a size, capacity or chemical type: `FIR-002-10LBS-DC` is a 10 lb dry chemical extinguisher. Codes sharing a stem are variants of one product — `FIR-001-11A` through `FIR-001-11E` are five fire blanket sizes.

Prices are Philippine Pesos, VAT inclusive, and are list prices only. This document does not record stock, lead time, delivery, discounts or warranty — for any of those, contact the sales team.

Items marked WITH OSHC are certified to Occupational Safety and Health Center requirements, which some Philippine worksites require. Standard and OSHC variants of the same item are listed separately and priced differently.
